

Denial of Service

The hidden cost of Deferred
Maintenance

Alan Stewart, PE
Honeywell Inc.

Denial of Service

- To withhold the necessary and code mandated support for habitation of facilities
- There are numerous support systems in modern buildings to:
 - Ventilate facilities
 - Clean and filter air
 - Control humidity

DOS Ventilation

- Poly sheeting over the outside air intake
- Broken or disconnected OA damper operators

DOS Filtration

- Dirty filters
- Missing Filters

DOS Humidity Control

- The air handler is growing the black stuff in the air handler and ductwork
- Occupant health impact
